However, in the case of long-term foreign currency monetary items, the exchange differences arising due to translation at rates different from those at which they were initially recorded, or reported in previous financial statements, are treated differently:

-If they relate to the acquisition of a depreciable capital asset, such differences can be added to or deducted from the cost of the asset and depreciated over its remaining useful life.

-In other cases, such differences can be accumulated in the “Foreign Currency Monetary Item Translation Difference Account” and amortized over the balance period of the related long-term asset or liability by recognizing the amount as income or expense in each of those periods.

Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

At each Balance Sheet date, the carrying amount of deferred tax is reviewed to reassess realization

(b) A fresh revaluation of land and building was carried out by an approved valuer as on 31<sup>st</sup> March, 1997 which was resulted in an increase in net value of land of **Rs.341.09 lacs** and value of building by **Rs.58.01 lacs** over and above the earlier revaluation reserve account.

**32)** In the opinion of the Management all the assets other than Property, Plant and Equipment and Non-Current Investment have a value on realization in the ordinary course of business, at least equal to the amount at which they are stated in the Balance Sheet. Provision for depreciation and all known liabilities is adequate and not in excess of what is required.

**33)** The balances of advances, Trade Receivable & Payables are subjected to confirmation. In view of the management pending reconciliation of party's balances does not have any material effect on the profitability of the company.

**34)** As required under Accounting Standards –28, the carrying amount of asset does not exceed its recoverable amount as assessed. Hence no impairment has been considered.

**35)** On the **30th day of January, 2025**, the Company acquired **80%** of the equity share capital of Yashoda Linen Yarn Limited, a company engaged in the manufacturing and trading of textile products for a consideration of **Rs. 186.44 lacs**, thereby making Yashoda Linen Yarn Limited a subsidiary of the Company, with effect from the date of acquisition.

**36)** In the previous financial periods, the Company had understated depreciation on the revalued portion of its building by **₹48.01 lakhs**, resulting in an overstatement of both the Revaluation Reserve and the carrying amount of the building by the same amount. Concurrently, **depreciation of ₹2.47 lakhs** was overcharged on the original cost of the building, leading to an understatement of its carrying value of building by the same amount.

Therefore, in the current financial year, the short depreciation of ₹48.01 lakhs on the revalued building asset has been adjusted by charging the said amount as additional depreciation. In line with the requirements of Accounting Standard (AS) 10 – Property, Plant and Equipment, ₹48.01 lakhs has been transferred from the Revaluation Reserve to the General Reserve. The excess depreciation of ₹2.47 lakhs previously charged on the original cost has been adjusted against a reversal of the same amount by charging lower depreciation. The net impact of ₹45.54 lakhs has been recognised in the accumulated balance of profit and loss account.
